## Lions Want Old Records For Music To Amuse Sick

Grand opera or jazz, vocal or instrumental, just so they are records, the Lions club wants them! So if you have any old phonograph records in the way around home or some that you naturally want that kid brother to quit playing, get in touch with a member of the Lions club and donate to the Shelby County Tuberculosis sanitarium. A call for such records has been made by the Lions club to replace the batch destroyed recently in a fire at the institution. They can be left with any Lion or at the Chamber of Commerce.

## PIG TO BE SOLD TO HELP THE HOSPITAL

The Duane-Jersey registered pig on exhibition at Sossel's market will be disposed of Saturday and the manager of the Cripple Children's hospital expects to have a handsome amount for the benefit of the automobile fund. The bidding is said to be as spirited among those who wish only to help the hospital as it is among the fanciers of the finer breed of stock.

## Boy Scout Program Has No Place For Basket Ball Teams

Basket ball is not for the Boy Scout troops. So declared L. W. Barclay, national commissioner of education for the Boy Scout movement, Wednesday night at a joint meeting of the scoutmasters and local executives.

Mr. Barclay does not approve of competitive work between Boy Scout troops. Co-operation should be the aim of all scout workers, he said.

"In basket ball there is a large number of onlookers and a small number of participants. In scout affairs there should be few onlookers and many participants. There is no place for basket ball in the scout program."

A tour of the entire country has been made by Mr. Barclay to promote training camps for scoutmasters. Mr. Barclay has been interested in the Boy Scout movement since its organization, in which he had an active part.

Up to the present time it has been almost impossible to get a face powder to stay on the face longer than it takes to put it on. You powder your nose nicely, and the first gust of wind or the first puff of your handkerchief and away goes the powder, leaving your nose shiny and conspicuous, probably just at the very moment when you would give anything to appear at your best. A specialist has at last perfected a pure powder that really stays on; that stays on until you wash it off. It does not contain white lead or starch, improved formula contains a medicinal powder doctor prescribes to improve the complexion. In fact, this powder helps to prevent and reduce enlarged pores and irritations. It is also astringent, discouraging flabbiness, crow's feet and wrinkles. This unusual powder is called La-may (French, Poudre L'Amie). Because La-may is pure and because it stays on so well it is already used by over a million American women. All dealers carry the large sixty-cent box, and many dealers also carry the generous thirty-cent size. When you use this harmless powder and see how beautifully it improves your complexion you will understand why La-may so quickly became the most popular beauty powder sold in New York. We will give you five thousand dollars if you can buy a better face powder anywhere at any price. Herbert Roystone, 16 East 18th St., New York.

Women say La-may stays on better than any other face powder.

All dealers carry the large sixty-cent box, and many dealers also carry the generous thirty-cent size. When you use this harmless powder and see how beautifully it improves your complexion you will understand why La-may so quickly became the most popular beauty powder sold in New York. We will give you five thousand dollars if you can buy a better face powder anywhere at any price. Herbert Roystone, 16 East 18th St., New York.

Up to the present time it has been almost impossible to get a face powder to stay on the face longer than it takes to put it on. You powder your nose nicely, and the first gust of wind or the first puff of your handkerchief and away goes the powder, leaving your nose shiny and conspicuous, probably just at the very moment when you would give anything to appear at your best. A specialist has at last perfected a pure powder that really stays on; that stays on until you wash it off. It does not contain white lead or starch, improved formula contains a medicinal powder doctor prescribes to improve the complexion. In fact, this powder helps to prevent and reduce enlarged pores and irritations. It is also astringent, discouraging flabbiness, crow's feet and wrinkles. This unusual powder is called La-may (French, Poudre L'Amie). Because La-may is pure and because it stays on so well it is already used by over a million American women. All dealers carry the large sixty-cent box, and many dealers also carry the generous thirty-cent size. When you use this harmless powder and see how beautifully it improves your complexion you will understand why La-may so quickly became the most popular beauty powder sold in New York. We will give you five thousand dollars if you can buy a better face powder anywhere at any price. Herbert Roystone, 16 East 18th St., New York.

## SISTER HELPED HER BROTHER

Mr. George Schillo, 6208 Pear avenue, Cleveland, Ohio, writes: "I am glad I was recommended to your medicine. I was pretty well rundown, nervous, and lost of ambition, felt tired at all times, could not sleep, and had lost of appetite, felt weak and trembled from weakness. I find your Cadomene Tablets helping me very much. I was writing to my sister about my run-down condition. She advised me to take Cadomene, as she had been as bad off as myself. Cadomene built her up and restored her health. I am more than thankful I received her advice." Sold by druggists everywhere.
